***FOR IMMEDIATE RELEASE***

**DEWPOINT EXPANDS INTO OHIO**

**Lansing, Mich., July 15, 2005**— Dewpoint, a leading information-technology service provider, has opened a new Ohio office in suburban Columbus. The office, located at 570 North State Street, Suite 230 in Westerville, is Dewpoint's third office outside Michigan. The telephone number is 614/212-5353.

Dewpoint chose Columbus because of the area's thriving retail, commercial banking and financial services industries, all major components of the company's growing customer base, according to Andy Kotarba, Dewpoint president and CEO. This location also brings Dewpoint staff and services closer to its current clients in Ohio.

Dewpoint is a leading Sun Microsystems iForce partner and one of the largest independent information technology integrators in the Midwest. The company specializes in designing, implementing and supporting leading-edge server and storage, identity management and enterprise security solutions. In addition to the company's headquarters in Lansing, Mich., Dewpoint maintains regional offices in Indianapolis, Ind. and Columbus, Ohio. For more information, call 517/316.2860 or visit [www.dewpoint.com](http://www.dewpoint.com)
