DEWPOINT IT CONSULTING EXPANDS IN SOUTHFIELD ***Local Presence Supports Southeast Michigan IT Endeavors***

Southfield, Michigan—April 1, 2008 – Dewpoint, Inc., an IT consulting company specializing in solutions for identity management, business intelligence, enterprise security, storage architecture, and datacenter support, has recently opened an office in Southfield, Michigan. This new facility will house sales and technical field staff, many of whom are already assisting clients throughout the southeast Michigan region. An open house will be held on Thursday, May 1, 2008 from 3 p.m. to 6 p.m. During the open house Dewpoint will feature a demonstration of Sun Microsystems' Global Desktop solution. The new office is located at:

Dewpoint, Inc.
25800 Northwestern Highway, Suite 150
Southfield, MI 48075
p 248-354-7366
f 248-354-7481

“The new office is a natural extension of our business in metropolitan Detroit,” stated Dewpoint’s president, Andy Kotarba. “We already support a large number of customers in markets such as education, healthcare, government and commercial enterprise. We now have a central point of reference for customers and employees alike.”

Dewpoint experts help companies tackle complex IT solutions to secure and best utilize critical data, increase efficiency and manage costs. Unique to Dewpoint is its strong team of certified project managers, who participate throughout process to ensure best practices and on-target delivery. Industry leaders such as Sun Microsystems, Oracle, Symantec and other key providers partner with Dewpoint in order to deliver the latest hardware and software solutions available.

About Dewpoint
